PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building modern, scalable, and accessible interfaces, now extending into mobile development. At Globant I work across a React + TypeScript back office and a mobile app built with Kotlin and Compose for Android and iOS for an international client. Specialized in React, TypeScript, Redux and Design Systems. I use AI-assisted development (Claude Code) daily to ship faster without compromising code quality. Comfortable in Scrum teams, code reviews and CI/CD workflows.
